

## Mini Cafe

An innovative compact hot beverage dispenser that has the same sophisticated look and versatility as the Classic, Caramba and Vision.

The KnightWell Mini Caf, is made in Dordrecht, Holland. Like its predecessors, it was designed using computerised CAD systems with the primary intention of producing a compact coffee system for small offices where space can be utilised optimally.

The Mini Caf' system works fast and smart. It offers Coffee, Espresso, Cappuccino, Caf' au lait and Hot Chocolate.

With easy refill canisters for ingredients and a fully electronically controlled dispensing system, maintenance is made so much simpler.

The Mini Caf' serves a good old fashioned cup of hot beverage through simple touch button keypad throughout the day and night.
